The Gladiolus

The peer of all Summer garden flowers as a cut flower. Easy of culture, with a color range equalled by no other flower grown. The brightest and darkest of reds, purples, blues, mauves, pinks, yellows, though the cream shades to the perfect white, with literally hundreds of distinct varieties from the giant sizes to the smaller hooded primulinus, is it any wonder they are often termed the "Poor Man's Orchid". No garden is complete without them.

Hav-a-Look Gardens, has a collection of several hundred of the choicer varieties. The stock of many of these recent introductions is so limited, however, that we list only such varieties as can be readily supplied and those which can be had at reasonable prices. We shall, however, be more than willing to try and procure for our customers the rarer, scarcer varieties if they will advise us the kinds they desire.

We can supply bulbs of the foregoing varieties in most of the different sizes from bulblets to No. 1 bulbs of 1½ inches and upwards. Also by the hundred or thousand as may be desired.

If you can use bulbs in large quantities, write us for special prices.

Bulbs will be shipped via Parcel Post or Express as customer may elect. Buyer to pay such charges, excepting single bulbs which will be sent post paid.

Remittances may be made by Registered Mail, P. O. Money Order or American Express Cheques or Bank drafts on Boston, Mass.

Shipments will be filled in the order received and as expeditiously as is possible. An early booking of your order will be appreciated and will facilitate early shipments.
